YOUR INSTRUCTOR:
Panda Kroll, email: panda.kroll@csuci.edu, tel. 805 551-0773/Office: Sage Hall 2038 / Tues 3 pm or by arrangement

YOUR REQUIRED RESOURCES:
A single copy of both of the above will be on reserve at the library.
Blackboard – About half of your assignments are on Blackboard! You will need access to a computer.

BUS 110: OVERVIEW OF COURSE AND COURSE EXPECTATIONS

Class Preparation:
Plan for four to six hours of homework each week: 2 hours reading and re-reading assigned cases and articles and 2-4 hours preparing Case Questions and/or completing Blackboard assignments. I have done my best to make the extensive homework worth your time, by choosing “hot” topics likely to arise in your work and daily life.

Expectations: Attendance/Class Participation:
You are expected bring your syllabus, textbooks and any study guides to class every day. All students are expected to attend class, arrive on time, do assigned reading and preparation, and be prepared to participate in class by answering questions and doing at least one collaborative presentation. If a student comes in after roll is taken, the student will be marked absent unless and until the student meets with the instructor after class to change the roll sheet.

Exams/Quiz:
There will be one “fill-in-the blank” open book quiz on the Constitution, one multiple choice quiz, and three multiple choice exams, based on lecture, readings, assignments and/or any topics discussed during class. You will not need blue books or scantrons. You will be provided with a study guide prior to each exam. There will be no cumulative final, although exams may include material discussed throughout the semester. The instructor will exclude your lowest-graded exam from your score. NO MAKE-UP EXAMS WILL BE GIVEN! Exams and quizzes will be kept on file for only two weeks after the exam or quiz is given. If you wish to go over an exam or quiz, you may do so prior to that time.
Participation/Class Discussion/Presentation:
To prepare for class, students will read assigned reading in Blackboard and the textbooks case questions, and complete study guides. You will not turn in the completed study guides. We will have class discussions in which I will ask you questions from the readings. You can “opt out” by turning in a note with the words “opt-out” and your name on it. You can turn in up to three “opt-out” notes with no effect on your participation grade. You will prepare two collaborative presentations on chapters from Moral Tribes and cases from Blackboard and from the Business Law textbook (Jennings).

Method of Student Evaluation:
Exams (best two out of three) ..........................................................................................................................60%
Participation (Quizzes, Case Questions, Discussion & Presentations on Moral Tribes/cases)...30%
Attendance ..........................................................................................................................................................10%

Cut-Offs for Final Grade:
93% = A; 90% = A-; 87% = B+; 83%=B, 80% = B-; 77% = C+, 73% = C, 70% = C-; 67% = D+, 63% = D. Below 63% = F

Course Format:
The best way to learn and to apply the law is to read about and discuss legal issues that affect us, applying critical thinking to find rational conclusions. For this reason, this is not a lecture-based class. Instead, this class requires substantial student preparation and participation. Students will discuss their responses to assigned work and apply what they have learned to hypothetical and real situations. Students will be responsible for checking Blackboard each week for announcements, changes, clarifications and assignments, and for coming to class with study guides completed on the date due.

This course focuses on applying critical thinking skills to solve ill-structured problems. To be successful in this course and in the job market, you will need to develop the capacity to evaluate skillfully and fairly the quality of evidence and detect error, hypocrisy, manipulation, dissembling (lies), and bias (prejudice).

What is Critical Thinking?
- Identifying issues and prioritizing which to address;
- Using evidence, experience, and values to analyze these issues;
- Managing uncertainty and risk; and
- Making rational decisions (i.e., finding the most productive solution that is sensitive to uncertainty & risk

Program Learning Goals
1. Critical Thinking
2. Oral Communication
3. Written Communication
4. Collaboration
5. Conduct (Ethics)
6. Competency in Discipline

Student Learning Outcomes/Course Objective:
The course objective is to provide students with practical knowledge of legal principles and issues that arise in business. Businesses are subject to employment and contract disputes, negligence claims, regulatory compliance, and other legal issues, yet many business owners and managers are ill-equipped to identify legal risks before they arise. Without legal sophistication, business cannot identify and implement strategies to prevent problems from occurring or, at least, from spiraling out of control. While litigation is an inevitable cost of doing business, it is controllable. Students will develop the ability to spot potential legal problems and manage risks, enhancing their marketability to the businesses that employ them, and enhancing their effectiveness as entrepreneurs.

At the completion of this course, students will be able to:
- Describe the major components of the United States legal system (5, 6);
- Write analyses of cases related to business organizations and their legal environments (1, 3, 5);
- Research and present oral and written analyses of how laws and regulations impact business organizations (1-6);
- Identify, analyze, and suggest solutions for businesses to address their legal and ethical challenges (1-6).
Cheating, Plagiarism and Other Forms of Academic Dishonesty: Don’t copy another student’s test and don’t let another student copy your test. Use quotes if the words you use are not yours and cite the author. CSUCI characterizes its graduates as creative in developing imaginative self-expression and independent thinking, and dedicated to maintaining principles of intellectual honesty. Academic dishonesty is incompatible with these characteristics. Accordingly, you are expected to complete your own work, and you will be subject to sanctions if you cheat or assist others in cheating. If a student is suspected of submitting work containing word-for-word language from websites, other students, etc., OR if a student is suspected of assisting another student in cheating or copying, the student will be reported to CSUCI’s Judicial Affairs for adjudication / sanctions, including a failing course grade.

Disabilities Accommodations:
Students with Disabilities needing accommodations, please make requests to:
Disability Accommodation Services Phone: 805-437-8510 (V/TTY); Fax: (805) 437-8529
