Academic Honesty: Academic integrity is the responsibility of all members of the CSUCI community. We, as members of the university community, share equally in the responsibility to ensure that the honor code instills self-respect; fosters scholarship and achievement; builds habits of honesty; promotes ethical behavior; inspires mutual fellowship and respect; and confers prestige on California State University Channel Islands and members of the university community. All university community members should be familiar with the Honor code. Students share with faculty and staff the responsibility of sustaining a climate of integrity. These values are to be maintained at all times. In this course, you must be honest and truthful. Ethical violations include **cheating on exams, plagiarism, reuse of assignments, improper use of the Internet and electronic devices, unauthorized collaboration, alteration of graded assignments, forgery and falsification, lying, and facilitating academic dishonesty**. In addition, I encourage collaboration on homework assignment with your friends, colleagues and/or teaching assistants. This is an important part of your learning. However, whatever work you collaborate on must be thrown away before you write up your own solutions – this is to assure that the work you submit is your own. Lack of knowledge of [the academic honesty policy](#) is not a reasonable explanation for a violation. Report any violations you witness to the instructor.
