

BUS 500 - Syllabus

Instructor Information

Bryan Tomlin PhD

OH: W 9am-11:50am – 1168 MVS Hall

Course time/location: Mondays 6:30pm-9:30pm, via Zoom (link on Canvas)

email: bryan.tomlin@csuci.edu

Please allow 48 hours for responses to emails. If I don't get back to you, it's almost certainly because your message got caught in a spam filter, so if I'm slow to respond, please talk to me in person.

Course Description

This course is designed to acquaint you with key concepts in both micro and macroeconomics. Emphasis will be placed upon methods and models of particular relevance to business and general discourse. By the end of this course, you should be able to “think like an economist,” and apply the intuition of numerous micro and macroeconomic models to understanding the likely effects of events on market outcomes. You should also understand the possible market implications of governmental policies, such as tax policy, trade policy, and both monetary and fiscal policy in general.

Grading

Course Points Outline		
Category	Description	Points
Homework	Weekly assignments (9) <i>Posted: after each lecture as shown in the course calendar (below)</i> <i>Due: before the start of the following lecture</i>	90 points (10 points each)
Midterm	Week 7 (March 4th) – During Lecture	40 points
Final	Week 16 (May 6th) – During Lecture	40 points
Total		170 points

Grading Table

Your letter grade in this class is determined by your point (score) total as follows, with the bottom quartile of each range receiving a “-” and the top quartile receiving a “+”

Score Range	Grade
153-170	A
136-152	B
119-135	C
102-118	D
< 101	F

Grading scale (see table for specific point values for each grade)

Assignments

Assignments are due BEFORE the start of class each week. Assignments handed in after the start of a lecture will receive no credit.

In addition to (almost) weekly graded assignments, there are (almost) weekly ungraded “thought exercise” assignments.

Exams

Exams will be held DURING lecture, on the weeks specified above. The exams will be made available at the start of lecture, and will be due by the conclusion of the same lecture (i.e. 2 hours later). Exams must be submitted before the end of lecture. Late submissions will not be accepted. I will be available to answer questions during the exam through the online interface as well as by email if you are more comfortable sending questions in that manner.

Textbook

In an effort to keep the text affordable, an older version of an excellent text is being adopted. The following textbook will provide a useful supplement to the materials presented during lectures. Weekly readings from this textbook are listed in the course outline (above).

Mankiw, G.; “Essentials of Economics,” *Any Edition*

(Note: you can use any edition of Dr. Mankiw’s “Essentials of Economics” text you like, though the chapters may differ slightly from those listed on the syllabus)

Extensions and Exam Rescheduling

I offer homework extensions and/or exam rescheduling under extenuating circumstances. If you need to reschedule, or think you need to reschedule, any of the above dates, please let me know before the start of week 3.

Academic Honesty

This class will exercise a zero-tolerance policy for cheating, and any cheating will be punished to the full extent permitted by the university. Exams will be open-book and open-note, but will not be open-peer, meaning that you can consult your notes and course materials while taking tests, but you cannot consult with other people, regardless of whether or not they are enrolled in this class.

Course Outline

Week # (Date)	Lecture #	Homework #	Material	Supplemental Textbook Reading
1 (1/20)	---	---	MLK Day – No class	---
2 (1/27)	1	1	Introduction. Incentives, opportunity cost, modeling production possibilities, Ricardian model of trade	Chapters 1-3
