ASSESSMENT AND GRADING:

Assessment in this course is based on multiple elements. Each form of assessment addresses different (sometimes multiple) learning outcomes and each form of assessment may require a different set of knowledge, skills and abilities:

Attendance:

The first class is MANDATORY. Students must attend the first class. A great deal of information about the requirements of this course, the evaluation process and any updated information will be discussed on this day. Student participation including attendance is essential for effective learning. Failure to attend all classes may negatively affect your grade. To pass the class, students can miss no more than two class meetings. Students are expected to attend each class meeting, coming prepared to discuss course materials and assignments. Active participation is strongly encouraged in the classroom. Grades are affected by attendance and by the quality of participation.

Attendance at the first class meeting is mandatory unless properly excused by the class instructor. Students who do not attend the first class meeting of a course for which they are registered may be dropped from the course by the academic program that offers the course. It remains the student's responsibility to verify course drop dates to avoid academic and financial penalties.

Students may miss a maximum of two weekly class meetings. Attendance of less than 75% will be considered as insufficient. Failure to meet the individual course attendance requirements may result in a grade of F. When possible, students also must provide advance notice of absences, as well as relevant documentation regarding absences, to the instructor as soon as possible following the illness or event that led to the absence. Any arrangement to make up work because of class absence is the responsibility of the student to contact the course instructor.

Details on grading standards for each form of assessment can be obtained from the following grading rubric:

DESCRIPTION OF ACTIVITIES:

1. Weekly In-Class Discussions / Class Attendance (10 Grade Points)

Students are expected to attend each class and initiate and respond to questions in class as well as interact in the flow of in-class discussions and/or in-class course and group application exercises.

2. Readings & Videos

Students are to read in advance any weekly assigned articles. Read and watch a "selection" of the articles and video's related to the topic of each class and arrive in class prepared to discuss these during the class. Many of the readings and videos are sound bites. Students are encouraged to seek out the value in each and conduct further research in subjects that are of interest.

3. Article Presentations (10 Points)

Each review will focus on the group members "interpretation" of business concepts, theory and marketing management that are expressed in the article or video. This is a 10 minute presentation. This exercise is designed to develop your presentation and interpretation skills.

I am interested in what your group members think - not the author's thoughts.

For each article or case study group's will address;

- (1) very brief background
- (2) key industry / company / customer issues
- (3) why this article is important to Marketing Management
- (4) what Ideas or Key Concept will you take away from the case study / article
- (5) how have you seen the concepts applied in other companies or industries, with what results.
- (6) how can you apply the concepts in this article / video to your group project

This exercise is to develop the student's own personal interpretation skills. I am interested in your interpretation of the article content, which will include: (a) what key ideas or concepts will you take away from the article, (b) how will you apply the concepts in your group or work environment, (c) how have you seen the concepts applied in a business and/or retail environment, and with what results. WMC peer consultants help students at any stage of the composition process in any discipline for writing or speaking (such as online slideshow presentations). Students are also welcome to bring in other types of non-academic or creative work. WMC professional consultants are CI faculty who can help students working on graduate-level writing or personal and research statements required for graduate school applications. WMC tutors can also help those who want to talk about or wish to learn new skills in speaking in academic or online contexts. Students can drop in for a 30 min tutorial session or ask for one-hour sessions for longer projects. Make an appointment by visiting <http://www.csuci.edu/wmc>.
